

Table of Contents

Foreword	1
Special Thanks	8
This Book's Examples	9
About The Authors	11
1. What is the Cloud Development Kit?	13
1.1. Concepts	13
1.2. Behind the scenes	14
1.3. Comparing the CDK with the other IaC tools ..	15
1.3.1. CDK vs CloudFormation	15
1.3.2. CDK vs Terraform	16
1.4. Other CDKs	16
1.5. Review	17
2. What Are Constructs?	18
2.1. The Tree	20
2.2. Levels of Constructs	24
2.2.1. Level 0 Constructs	24
2.2.2. Level 1 Constructs	24
2.2.3. Level 2 Constructs	25
2.2.4. Level 3 Constructs	26
2.3. The App Construct	28
2.3.1. The Stack Construct	28
2.4. Review	29

3. Publishing Constructs	31
3.1. How to write and publish constructs	31
3.1.1. What is jsii?	31
3.1.2. How does it work under the hood?	32
3.2. Setting up a construct project (using projen) ..	32
3.2.1. Roll-Your-Own (not recommended)	33
3.3. Limitations and Best practices	34
3.3.1. Limitations of jsii	34
3.3.2. Build reusable components	35
3.3.3. Do not leak abstractions	36
3.4. Building & Publishing	36
3.4.1. Naming things	37
3.4.2. Releasing with projen	37
3.5. Construct Hub	37
3.6. Review	38
4. Leveraging your Integrated Development Environment	39
4.1. AWS CDK Toolkit	39
4.1.1. Creating a new app	40
4.1.2. Synthesizing and Deploying apps	40
4.1.3. Comparing stacks	41
4.2. Visual Studio Code Tips	42
4.2.1. AWS Toolkit for Visual Studio Code	43
4.2.2. Tasks	45

4.2.3. Debugging	48
4.2.4. ESLint Cleanup	53
4.3. Review	54
5. Project Layout	55
5.1. Typescript Projects	55
5.1.1. Application Files	55
5.1.2. Stack Files	56
5.1.3. Construct Files	56
5.1.4. cdk.json	57
5.1.5. cdk.context.json	59
5.1.6. README.md	59
5.1.7. tsconfig.json	60
5.1.8. package.json	60
5.1.9. Tests	60
5.1.10. .gitignore and .npmignore	61
5.1.11. Initializing with the CLI	61
5.1.12. Initializing with Projen	63
5.2. Python CDK Projects	68
5.2.1. Initializing with the CLI	68
5.2.2. README.md	72
5.3. Organizing Your Project	76
5.4. CDK Code and Your Application Code	79
5.4.1. Further Examples	80
5.5. Review	81

6. Custom Resources and CFN Providers	82
6.1. Custom Resources	82
6.1.1. Implementing custom resources using AWS CDK	83
6.1.2. Using the CDK Provider framework	85
6.1.3. Simple custom resources for AWS API calls	89
6.2. CloudFormation Resource Types	90
6.2.1. What is the CloudFormation registry	90
6.2.2. Brief How-to for CloudFormation CLI	91
6.2.3. Creating an L1 construct for a custom type	92
6.3. Interacting with the APIs during CDK deployments	94
6.3.1. Using a custom resource as a hook during the deployment lifecycle	94
6.4. Review	97
7. Configuration Management	98
7.1. Static Management	101
7.1.1. Context Variables	103
7.1.2. Static Files	107
7.1.3. Less Static-y Files	108
7.2. Dynamic Management	111
7.3. Application Configuration	115

7.3.1. Systems Manager Parameter Store	115
7.3.2. Secrets Manager	117
7.4. Review	120
8. Assets	121
8.1. What Are Assets	121
8.2. Bootstrapping	122
8.2.1. Legacy and Modern Bootstrap Templates .	123
8.2.2. Customizing Bootstrap Templates	124
8.2.3. Customizing the CloudFormation template	126
8.3. Docker Image Assets	126
8.3.1. Docker Image Asset in Action: ECS Fargate	129
8.4. S3 assets	131
8.4.1. S3 Assets in Action: Deploying Lambda Functions using S3 Assets	133
8.4.2. S3 Assets in Action: EC2 User Data	136
8.5. Asset Bundling	138
8.5.1. Docker Bundling	139
8.5.2. Local Bundling	141
8.6. Review	143
9. Testing	144
9.1. Unit Tests	145
9.1.1. Matchers	157

9.1.2. Captures	161
9.1.3. Refactoring	162
9.1.4. Mocking Assets	168
9.2. Deployment Tests	170
9.3. Infrastructure Tests	172
9.3.1. Use Case 1 - Static Website	174
9.3.2. Use Case 2 - Lambda-backed API Gateway	177
9.3.3. Use Case 3 - A Simple Pub Sub Bus	184
9.3.4. Hotswapping Lambdas	191
9.4. Application Code Tests	191
9.4.1. A Simple Typescript Example	192
9.4.2. Testing More Complex Lambdas	194
9.4.3. Typescript/Javascript	195
9.4.4. Python	201
9.5. Review	205
10. Enterprise Construct Libraries	206
10.1. How To Explain AWS CDK to Central Infra Support Teams	206
10.2. How To Drive Adoption From Engineers ...	207
10.3. Types of Enterprise Construct	209
10.3.1. Internal, Customized Abstractions	209
10.3.2. Core, reusable utilities	216
10.3.3. Base Stack Implementations	216

10.4. Governance and compliance	217
10.5. Review	220
11. Deployment Strategies	222
11.1. Branching strategies	222
11.1.1. Trunk-based development	223
11.1.2. Why not one branch per stage?	224
11.2. Environment / Stages / Waves	225
11.2.1. Definitions	226
11.3. Basic deployment flow	229
11.4. CDK Pipelines	231
11.4.1. General implementation	231
11.4.2. Source providers	233
11.4.3. Synthesizing the app	234
11.4.4. Self-mutation	235
11.4.5. Assets	236
11.4.6. Deployment of stages and waves	236
11.5. Roll your own pipeline	238
11.5.1. Outlook	240
11.6. Review	240
12. Importing CloudFormation Templates	241
12.1. Extending Existing Templates	242
12.2. Replacing Existing Templates	243
12.3. Review	245
13. Combining AWS CDK With Other Dev Tools ..	246

13.1. AWS CDK and AWS SAM.....	246
13.1.1. sam build.....	246
13.1.2. sam local invoke.....	247
13.1.3. sam local start-api.....	247
13.1.4. sam local start-lambda.....	248
13.2. AWS CDK and AWS Amplify.....	248
13.3. AWS CDK and CDK for Terraform.....	249
14. Next Steps.....	251
15. Appendix 1: Migrating from CDK 1 to 2.....	252
15.1. Major Changes.....	252
15.2. Upgrading Existing Projects.....	254
15.3. Find and Replace with your IDE.....	258
